- Paleogene and Cretaceous plutons
- Migmatite and leucogneiss
- Migmatite and paragneiss
- Work Channel amphibolite
- Oligocene plutons
- Mid-Cretaceous plutons
- Metamorphic and sedimentary rocks of the western thrust belt, Alexander terrane and Gravina belt
- Volcanic and sedimentary rocks of Stikine terrane
- Ultramafic rocks (Early Cretaceous)
- Recent basalt flows
- Water, alluvium, ice

Paleogene arc

- Reftek stations
- ▲ UBC Reftek stations

25 km

- brittle fault (dashed where inferred)
- - - approximate center-line of Coast shear zone
