Date:09-JAN-2025 Page 2 OF 3

#### **Additional Explanation**

#### **Standard Terms and Conditions**

<http://www.viavisolutions.com/terms>

#### **Warranty for VIAVI Hardware, Software, Services**

[www.viavisolutions.com/warranty](http://www.viavisolutions.com/warranty)

If an executed sales agreement or channel partner agreement exists between the Customer and VIAVI covering the products, services or solutions identified in this quotation, then it shall govern any purchase order received from the Customer relating to such products, services or solutions. In the absence of a sales agreement or channel partner agreement, by placing a purchase order with VIAVI, the Customer hereby accepts the applicability of VIAVI's quotation and standard terms and conditions (except for those specific terms included in this quotation which shall supersede any conflicting standard terms and conditions), which are attached to this quotation and are available at [www.viavisolutions.com/terms](http://www.viavisolutions.com/terms). This quotation supersedes any previous communications, quotations, representations or agreements between the parties, whether oral or written, regarding transactions hereunder. VIAVI does not accept, expressly or impliedly, and VIAVI hereby rejects, any additional or different terms or conditions that the Customer presents, including, but not limited to, any terms or conditions contained or referenced in any purchase order, acceptance, acknowledgment, or other document, or established by trade usage or prior course of dealing, unless VIAVI expressly and unambiguously agrees to such terms and conditions in a duly signed writing. The application of the VIAVI terms and conditions shall be deemed effective unless the Customer has expressly notified VIAVI to the contrary prior to the earlier of three (3) business days after the issuance of VIAVI's order acknowledgment or any shipment or other performance of this order by VIAVI.

Please note that if certain products in this quotation are subject to Export Control, any stated delivery shall be subject to receipt of the relevant export license. To minimize delays, Customer should provide an End-User Undertaking when placing its purchase order.

**Viavi Solutions Inc. and its subsidiaries (the "Company") are committed to providing the highest quality products to our customers. For certain PNT products, this requires using leaded solder. Lead is prohibited unless an exclusion to the RoHS Directive (2011/65/EU) applies (e.g., military applications), or unless it is used in applications that are exempted under the Directive's Annexes III or IV (which are revised from time to time). By default, the Company will assume that all orders to be requested to be shipped outside the EU/EEA may contain leaded solder. If products are required to be built compliant to the RoHS Directive (2011/65/EU), then this must be explicitly and clearly stated in the customer's purchase order and acknowledged in written form by the Company at the time the purchase order is placed. Customer should indicate in its purchase order whether the products being ordered are for military use or deemed necessary for the protection of the essential interests of the security of EU Member States, including arms, munitions and war material intended for specifically military purposes.**
